## About Me

---

I am Daniel Christoper Bramastyo (24). Bachelor of Information Systems, Jambi University. My latest activity is as a job seeker. During college, I was active in student activities at Jambi University, including being active in the management of the Jambi University Information Systems Student Association. I developed a strong foundation in programming and data analysis. My involvement in the Information Systems Student Association honed my leadership and teamwork skills. I am passionate about utilizing technology to solve problems and I want to know and learn many things to innovate in improving skills.

---------------------	---

media from Cisco Skillforall, as well as independent learning by working on question modules, final projects and final exams.

**Feb 2022 - Jul 2022**

### **Cloud Computing Learning Path**

#### **Bangkit Academy led by Google, Tokopedia, Gojek, & Traveloka**

This activity is a self-directed learning path to learn Cloud Computing, which consists of individual learning and a final project in the form of a team.

The individual learning includes asynchronous classes through online learning platforms such as Dicoding Academy, Coursera, and Google Cloud Skills Boost. In addition, each participant has a mentor to consult with in case of non-academic difficulties.

This program also prepares to take the global Associate Cloud Engineer certification exam from Google after completing all Certified Independent Study materials.

**Jul 2021 - Sep 2021**

### **Fresh Graduate Academy | Database Design and Programming with SQL Digital Talent Scholarship**

The program is part of the Digital Talent Scholarship (DTS) in collaboration with Kominfo RI and UNG and is available to final year students and unemployed alumni.

The training covers the database design process which involves organizing data according to the database model using learning media from Oracle Academy, as well as self-learning by working on question modules, final project and final exam.
